“There is no failure, only growth.”

Education

Inha University, Department of Artificial Intelligence

Incheon, South Korea

B.S. IN ARTIFICIAL INTELLIGENCE

Mar. 2021 – Present

- Expected graduation: February 2027.

Research Interests

Generative Models, Multimodal Learning, Computer Vision

Research Experience

DAVIAN Lab | Kim Jaechul Graduate School of AI, KAIST

Seoul, South Korea

RESEARCH INTERN

Jan. 2026 – Present

- Research on **3D-consistent video generation**, advised by Professor Jaegul Choo.
- **Co-first author** of a paper on 3D-consistent video generation, submitted to **ICLR 2027 (under review)**.

Multimodal AI Lab | Inha University

Incheon, South Korea

UNDERGRADUATE RESEARCHER

Dec. 2024 – Dec. 2025

- Reproduced and extended **training-free subject-driven image editing** methods.
- Reimplemented an editing pipeline whose code was not public and explored partial-region editing.

Startup Experience

Uniroad | AI Admissions Counseling

South Korea

CO-FOUNDING MEMBER / AI RESEARCHER

Mar. 2026 – Jul. 2026

- Designed the structured admissions database and **Agentic RAG** engine with source citations and low-confidence abstention.
- Built student-record personalization and automated community answers and short-form content. Currently providing external support.

UPFLOW | AI Workflow Automation

Incheon, South Korea

CO-FOUNDING MEMBER / AI RESEARCHER

Feb. 2025 – Oct. 2025

- Built regulation search and report generation for cosmetics OEM teams using **MCP-based collection** and **LangChain RAG**.
- Evaluated LLMs on work scenarios and converted unstructured client requests into standard forms with structured outputs.

Selected Projects

Robot World Model (2026 Inha AI Challenge)

Inha University

TEAM LEADER

2026

- Built action-conditioned future video generation from one image and a robot action sequence.
- Received the **Top Excellence Award (2nd place, graduate track)**.

LG Aimers 9th Hackathon: Pitch Control Prediction

South Korea

TEAM LEADER

2026

- Built calibrated probability prediction using tree models, residual models, and segment-wise calibration.
- Finished **88th on the hackathon leaderboard**; completed the LG Aimers 9th program in September 2026.

AI Coding Agent Action Prediction

South Korea

MODEL DEVELOPMENT

2026

- Predicted the next tool action from agent histories using session-level validation and controlled A/B experiments.
- Packaged compact models for inference within competition constraints.

CoverUs: AI Comment Management and Creator Insights

TEAM LEADER, PRESENTER

- Built an AI comment management solution using **MCP-based data collection**, retrieval, and personalized response generation.
- Developed a React and FastAPI MVP and received the Excellence Award at the Incheon startup competition.

Incheon, South Korea

Jun. 2025 – Sep. 2025

Text-Guided Image Colorization (2025 Inha AI Challenge)

TEAM LEADER

- Combined **DDColor** and **FLUX** inference, selecting each image by CLIP similarity to its text caption.
- Automated inference and submission packaging; received the **BK21 Excellence Award (undergraduate track)**.

Inha University

Jun. 2025 – Aug. 2025

AI-Generated vs. Human-Written Text Classification

TEAM LEADER

- Developed paragraph-level text discrimination with **LLM-based data augmentation** and **ensemble modeling**.

South Korea

Jun. 2025 – Jul. 2025

Enterprise Research and Report Generation Agent

TEAM MEMBER

- Built a RAG-based research and reporting agent and a LangChain CSV analysis interface in Streamlit.

Incheon, South Korea

Mar. 2025 – Jun. 2025

Awards & Honors

AWARDS

2026.09	Top Excellence Award (2nd, Graduate Track) , Inha AI Challenge: Robot World Model	Inha Univ.
2026.05	Excellence Award , Inter Campus AI Challenge (ICAC), with Upstage	South Korea
2025.09	Director’s Award (Excellence, Final Round) , Incheon University-wide Startup Competition	Incheon, S.Korea
2025.08	BK21 Director’s Award (Excellence) , AI Competition on Text-Guided Image Colorization	Inha Univ.
2025.06	Mayor’s Award (Outstanding Idea, Preliminary Round) , Incheon University-wide Startup Competition	Incheon, S.Korea
2025.05	Grand Prize (President’s Award) , Inter-university IT Hackathon(MOONG)	Inha Univ.
2025.03	Grand Prize , Launch Pad 2025 Startup Competition	Inha Univ.
2024.11	1st Place , Google Developer Groups IT Hackathon Ideathon and Demo Day	Inha Univ.
2022.09	1st Place (Dean’s Award) , Academic Excellence	Inha Univ.

HONORS

2021	Academic Excellence Scholarship , Awarded to students with outstanding academic achievement	Inha Univ.
------	--	------------

Leadership and Activities

AI Society: SINSA

VICE PRESIDENT

- Organized society programs, study curricula, and internal AI competitions under faculty supervision.

Incheon, South Korea

Jun. 2025 – Jun. 2026

AI Society: SINSA

COMPUTER VISION STUDY LEADER

- Designed the computer vision study curriculum and led study sessions.

Incheon, South Korea

Mar. 2026 – Jun. 2026

CS231n Study (Stanford Course)

STUDY MEMBER

- Presented CNN architectures and computer vision applications in a weekly study group.

Incheon, South Korea

Mar. 2025 – Jun. 2025

Selected Programs and Activities

PARTICIPANT

- Completed the **4th Smart Semiconductor Academy** covering AI semiconductors, large language models, and memory (March 2025).
- Participated in ISW SURF (Incheon Startup Week), operating an exhibition booth and delivering an IR pitch.
- Completed the Business Insight micro-major, including marketing, branding, and leadership coursework.

Teaching

Environmental Data Analysis Mentoring (Incheon Metropolitan Office of Education)

Incheon, S.Korea

MENTOR

May. 2025 – Jun. 2025

- Conducted **AI-based environmental data analysis mentoring** for middle and high school students under the Incheon Metropolitan Office of Education.
- Utilized NLP techniques such as **KoNLPy, stopwords removal, and Kkma morphological analysis** to identify and analyze carbon-neutrality issues.
- Implemented a recycling-status **dashboard and an object detection model** for recyclable item classification.

Digital Green Workshop (Inha University Digital Innovation Center)

Incheon, S.Korea

MENTOR

Oct. 2024

- Mentored high school students in an environmental data analysis workshop organized by Inha University and the Incheon Metropolitan Office of Education.
- Guided participants to define environmental problems through **AI-based data analysis** and propose **blockchain incentive systems** as practical solutions.

EBS 1318 On-Coaching Program

Siheung, S.Korea

MENTOR

Jul. 2024 – Present

- Provided one-on-one mathematics and science tutoring for middle and high school students.
- Focused on fundamental topics such as **equations, functions, and set theory**, emphasizing conceptual understanding.

Hwasung Mathematics Academy

Yongin, S.Korea

TEACHING ASSISTANT

Mar. 2021 – Feb. 2022

- Assisted with curriculum design and personalized learning plans based on student needs.
- Taught mathematics including **probability, statistics, and calculus** for college entrance preparation.
- Communicated with students and parents to coordinate academic goals and progress.

Skills

Programming	Python, C++
Frameworks	PyTorch, TensorFlow
RAG & Agents	LangChain, Streamlit, MCP
Tools	Linux, SSH, GitHub
Libraries	NumPy, Pandas, Matplotlib, Scikit-learn

Others

Certification

ADSP (MAR. 2024)
